Advanced Test Equipment Corp (ATEC), a recognized provider of test and measurement equipment rentals, sales, and calibration services, announces the return of its annual San Diego Test Equipment Symposium (SDTES). This industry-focused event allows engineers, technicians, and compliance professionals to explore and share new developments in the testing landscape.

Taking place on September 15, 2026, at ATEC's headquarters located at 10401 Roselle Street in San Diego, CA, the symposium will feature hands-on equipment demonstrations, presentations from industry experts, and live exhibits focusing on a variety of topics including wireless communication and product compliance during design.

Enjoy tours of ATEC's ISO 17025 accredited labs and live demonstrations with peers in the industry. Connect with industry professionals, industry representatives, manufacturers, and ATEC specialists to learn about the newest advancements in test and measurement technologies.

"ATEC is dedicated to ensuring testing professionals have access to the tools and expertise required to meet evolving challenges," said Jamison Berg, CEO of Advanced Test Equipment Corporation. "The San Diego Test Equipment Symposium serves as an important forum for engineers and compliance specialists to learn about advancing technologies, exchange knowledge, and gain insight into the latest changes within the industry."
