Content

[PCB Directory - www.pcbdirectory.com](http://www.pcbdirectory.com), the leading online directory for the PCB industry, has published the **first edition of its PCB magazine**. This inaugural magazine consists of insightful articles, comprehensive product showcases, and a detailed directory of PCB service providers, offering valuable resources for industry professionals. This magazine is available in both print and digital versions.

The printed edition of the magazine will be available at major events, including Embedded World 2025, productronica China 2025, PCB East 2025, PCB West 2025, Focuson PCB 2025, and other key events.

The digital edition is now published on the PCB Directory and can be downloaded by clicking [here](#).

The articles published in the magazine are from diverse categories ranging from flexible circuits & rigid-flex PCBs to MilAero PCB requirements, PCB design & manufacturing and surface mount devices. Whether you're an industry expert or just intrigued by the topic, these articles offer a thorough understanding of fundamental concepts.

The magazine also showcases state-of-the-art PCB products from a multitude of companies across the sectors. From PCB production materials to advanced manufacturing equipment, the magazine covers products from manufacturers including Acculogic Inc, GOPEL Electronic, Cardel Ltd, Dymax, YINCAE, and many more. The product listings cover advanced PCB manufacturing equipment, assembly solutions, and cutting-edge design technologies, providing essential information to guide decision-making and project development.

Additionally, the magazine includes a country-wise Directory of PCB service providers, offering a detailed overview of companies specializing in PCB fabrication, assembly, and design services. This directory helps industry professionals identify and connect with reliable PCB partners, enhancing their supply chain capabilities.

Through its comprehensive content, the PCB Directory magazine serves as a valuable resource for staying updated on industry innovations and connecting with key players in the PCB sector.

About Us:

Heading : About PCB Directory

PCB Directory is the largest directory of PCB manufacturers and fabricators on the Internet. It lists leading printed circuit board manufacturers from around the world and makes them searchable based on location and manufacturing capabilities — such as PCB board types, laminates used, board thickness supported, and number of layers. The platform also includes tools for PCB quotations, allowing users to get pricing from multiple manufacturers using a single form. The site supports additional services like advertising opportunities, and users can submit press releases, articles, blog posts, and white papers for inclusion in the directory.
